<b>Office Action Summary</b>	Application No. 10/806,603	Applicant(s) DAVIES ET AL.	
	Examiner John C. Hong	Art Unit 3726	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE \_\_\_\_\_ MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Status

- 1) ☒ Responsive to communication(s) filed on 19 June 2006.
- 2a) ☒ This action is **FINAL**.                      2b) ☐ This action is non-final.

## DETAILED ACTION

### *Election/Restrictions*

1. Applicant's election with traverse of claims 15,16,20-34,38 and 39 in the reply filed on 6/19/04 is acknowledged. The traversal is on the ground(s) that it would be no undue burden on the Examiner to Examine both of the groups. This is not found persuasive because examining both of the groups would be a burden to the examiner.

The requirement is still deemed proper and is therefore made FINAL.

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 15,16,24,25,33,38 and 39 are rejected under 35 U.S.C. 102(b) as being anticipated by JP410275545.

'545 discloses a method comprising: heating a first element (22) comprising an initial dimension, where the first element is part of an assembly, to a first temperature sufficient to expand the initial dimension to a first dimension, the first dimension greater than the initial dimension; and removing the first element from the assembly (Fig. 1; Abstract). Examiner sees the first element (22) is **removed** from the assembly, since it depends on how the removing action is translated.

Regarding Claim(s) 16, it is inherent that a coefficient of thermal expansion of the first element (22) comprises a first value and a coefficient of thermal expansion of the assembly

Art Unit: 3726

comprises a second value, the first value different than the second value, since the component 21 is removed from the assembly of component 22 and 21.

***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 20-23 and 34 are rejected under 35 U.S.C. 103(a) as being unpatentable over JP410275545.

The limitations of coefficient of expansion, the material of the first element and heating method are matter of design choice and It would have been obvious to one of ordinary skill in the art at the time the invention was made to utilize such coefficient and material on the device of '545 so as to enable mounting battery without increasing the size of housing.

***Allowable Subject Matter***

5. Claims 26-31 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

6. Applicant's arguments filed 6/19/06 have been fully considered but they are not persuasive. See the new Office action

*Conclusion*

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
